

My family and I thoroughly enjoy listening to K-LOVE radio from the piedmont to the coast of NC. I find K-LOVE refreshing, informative and inspirational, in contrast to the many other "Morning/Drive Home" shows.

It is my understanding that stations like K-LOVE could be displaced by other Lower Power FM(LPFM) stations. I am writing to let you know that K-LOVE has a daily impact on my life and I'm sure others like me. For those that desire family friendly radio, K-LOVE is one of a limited number of stations out there. Most stations, I cannot listen to with kids in the car, for fear of what the DJ will say next. Please don't replace this valuable resource/service!

I believe it is in the public interest to leave stations like K-LOVE b/c it encourages strong, wholesome family values which, I hope you would agree, are absent from most programming in our society. This is one of the last strongholds positive family-values still maintains in society. If you were to remove this, I fear what's next. What will my family and I listen to in the AM?

I hope you'll strongly consider opinions of conservative, family-values oriented people like me, before eliminating such a limited, valuable resource in favor of "colorful", mainstream, secular programming - of which we already have plenty!

Thank you for your time and consideration in this important matter.

Regards,
Marshall G. Riggins
